

One simple act for the lake

I will

.....
signature (first name only)

partners

I will wash clothes in cold water. I will install a low flow toilet. I will keep my drinking water in the fridge. I will use the washing machine and dishwasher with full loads. I will turn off the tap when brushing teeth. I will check my taps and toilets for leaks and repair them if needed.

One Simple Act will make a big impact!

ONE SIMPLE ACT AT THE LAKE

Change begins at home. By evaluating how you live on your property, you will become more aware of your impact on the lake.

Small actions such as adding native vegetation to your property can improve the environmental health of your lake. Your one simple act for the lake can inspire others in your lakeside community to make positive changes.

By committing to make small changes to your property, you will save money, increase your property value, improve the health of your lake and enhance your community.

There are many water conservation, energy efficiency and waste reduction actions you can take at the lake to reduce your environmental footprint. Commit to one and see how easy it is! I will:

- compost
- use cloth or other re-usable bags when shopping
- buy foods grown locally
- take one fewer car trips a week
- maintain my vehicle's tire pressure
- plant a tree
- check toilet for leaks
- install a low flow toilet
- take shorter showers

Visit our website for more simple solutions to help reduce your environmental footprint! Add your voice. Tell us what you're doing.

Check the One Simple Act for the lake you have committed to:

Shoreline

- 1. I will plant native vegetation and allow already established vegetation to flourish on the shoreline.
- 2. I will "soften" rip rap and retaining walls on the shoreline by planting native vegetation.
- 3. I will allow aquatic and wetland vegetation to flourish (only removing a small section for boat access if necessary).
- 4. I will allow natural debris to accumulate on the shoreline.
- 5. I will allow my shoreline to return to a natural state by removing human made sand beaches on my property.

Yard

- 6. I will monitor and pull all invasive plant species.
- 7. I will replace hardened surfaces like driveways and sidewalks with gravel.
- 8. I will use toxin-free materials such as latex paints and natural oils for staining, and cedar or wood composite for decks.
- 9. I will eliminate the use of pesticides and fertilizers.

Home

- 10. I will have my sewage holding tank inspected regularly.
- 11. I will have my sewage holding tank pumped out every two weeks. I will have my field system pumped out every 2 years.
- 12. I will use phosphate-free, biodegradable soaps and cleaners.

Recreation

- 13. I will safely refuel my boat using spillage control devices like a spill guard system, fuel whistle, flow-control fuel container, or a no spill recovery system.
- 14. I will reduce my boat speed near the shoreline (slow down to 5km/hr within 160m of the shoreline).
- 15. I will maintain my watercraft motor with regular inspections.
- 16. I will replace my motor with one that meets EPA 2006 guidelines.
- 17. I will operate my recreational vehicle (ATV) in designated areas avoiding shorelines, wetlands and water bodies.
- 18. I will share a dock with my neighbor or use a community dock.
- 19. I will build a low impact dock.
- 20. Other: I will _____
